Berberine HCL

Synonyms: Berberine Hydrochloride
Cas No: 633-65-8
MF: C20H18CLNO4·2H2O

Specifications:

Item	Standards
Berberine (HPLC)	≥97%, 98%
Appearance	Fine yellow powder
Odor&Tasted	Characteristic
Particle Size	99% pass 80 mesh
Shelf life	2 years when properly stored
Package	25kg/Fiber Drum with double plastic container inside
Storage	Store in sealed containers at cool & dry place. Protect from light, moisture and pest infestation.

Product Application:

1. Canker sores. Research shows that applying a gel containing berberine can reduce pain, redness, oozing, and the size of ulcers in people with canker sores.
2. Diabetes. Berberine seems to slightly reduce blood sugar levels in people with diabetes.
3. High levels of cholesterol or other fats (lipids) in the blood (Hyperlipidemia). Berberine might help lower cholesterol levels in people with high cholesterol.

Product Description:

Berberine HCL, also called berberine hydrochloride, is a derivative of berberine. Berberine is a kind of isoquinoline alkaloids, extracted from the rhizome of Coptis Chinensis (also called Chinese Goldthread). It is yellow powder, soluble in water and hardly soluble in benzene, diethyl ether chloroform or other organic solvents.Berberine powder has a lot of health benefits. In Chinese Traditional Medicine, berberine is used for its antibacterial property, and some studies show that it also has potent antioxidant and anti-inflammatory effects. Many studies show that berberine can significantly reduce blood sugar levels. Berberine may help you lose weight. Berberine can lower cholesterol and may reduce your risk of heart disease.
